

# The Huskies Leader

## From Brad Best, Superintendent...

To our parents and supporters,

The Elementary and Secondary Education Act was passed back in 1965 as part of an initiative to combat poverty. The act encouraged equal access to education and authorized federally funded programs at the state level. Congress amended the act in 2002 and reauthorized it as No Child Left Behind. It was to be reauthorized every 5 years (2007), but Congress has not completed this task to date.

When states receive federal funds, there are always strings attached. One of those strings is Adequate Yearly Progress (AYP) for every school in the state. As part of this requirement, the achievement goal for all students in the state was 100% proficiency for this last school year in all subjects. The act does not take into consideration poverty, disabilities, or English language proficiency. Because of these unrealistic goals, many schools in the state will be labeled as "In Need of Improvement".

Our proficiency rates are typically 5-15% above the state averages in every subject and every grade level. Even so, 80% proficiency is not 100%, so according to NCLB, we are in need of improvement. I don't believe our school is low performing. We work hard every day to prepare our students the best we can. We look at data several times each year and make adjustments based upon what areas may need attention. Our teachers and students are performing admirably. I know what would have happened if we had refused to complete our work since 2007, but the same accountability does not apply to Congress.

I would concede that there are a couple of areas that need more attention than others; we are looking carefully at how to make those improvements. Rest assured that our approach is not of complacency, but of focus to continually improve.

We will publish a "report card" of our district in the first part of December. If you would like to peruse the data before then, please go to the State of the Schools Report at the Nebraska Department of Education website: <http://www.education.ne.gov>

Please give us a call if you have any questions and have a great fall season!

## School Closing Information

As the winter approaches, occasional bad weather necessitates the closing of school for the safety of our students. School closing information will be announced over the radio station KAWL (1370) and television stations KHAS, KLKN, NTV and KOLN.

We also use an automated phone message service through School Reach which we will use to contact parents about school closings as well. With this service it is very important that we have current contact numbers on file. Please call the school office if anything changes.

**You may also call our school closing phone line at 402-723-4421.** If a decision has been made the night before, the closing will be announced around 10:00PM. In the mornings it will be announced on the half hour from 6:30AM to 8:00AM.

PLEASE JOIN US FOR OUR VETERANS' DAY PROGRAM

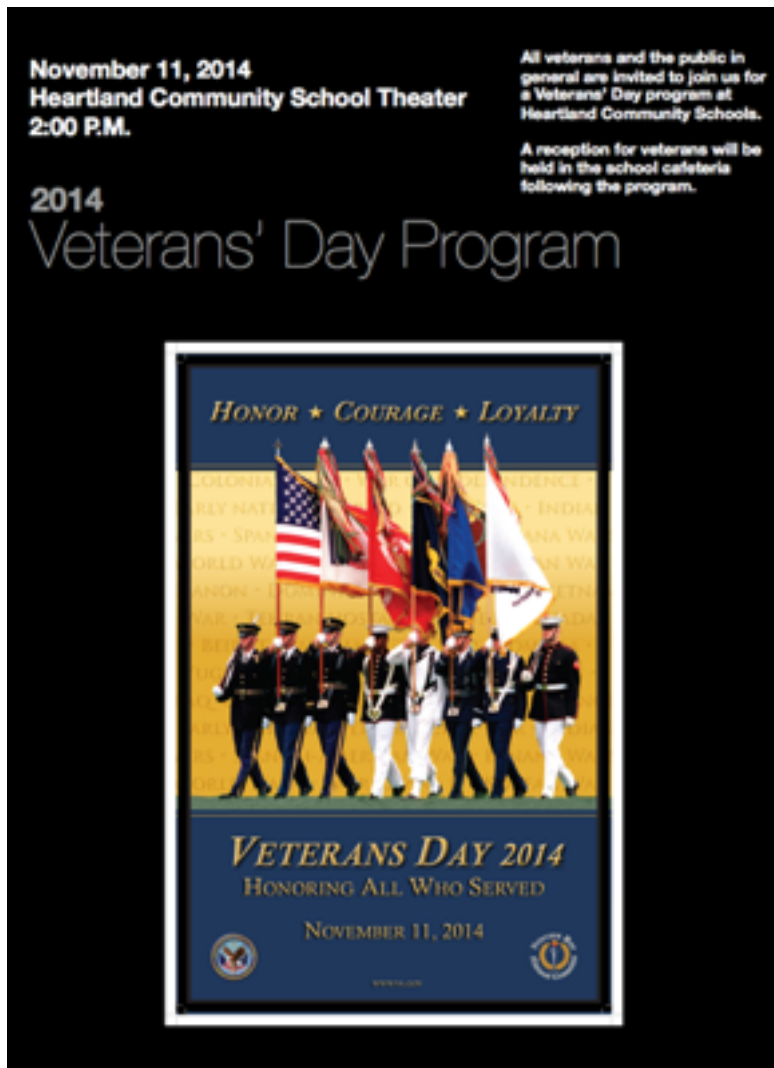

We would like to invite all area veterans and the general public to a Veterans' Day program at 2:00 P.M. on November 11th in the high school theater.

Our program will recognize our veterans through music, video, and spoken word. Our Veterans' Day address will be delivered by Chief Warrant Officer 2 Dustin Guenther, Human Resources Technician for the 67th Battlefield Surveillance Brigade, in the Nebraska Army National Guard. He continues to serve his country and has completed 16 years in the military with two overseas tours.

We will also be hosting a reception for our veterans in attendance following the program in the school cafeteria.

Chief Warrant Officer 2  
Dustin Guenther

WE HOPE THAT YOU WILL JOIN US!

**Lauren Quiring explains her "Chill Out" science project to other students.**

For the 1st quarter of the school year the Heartland Community sixth graders studied the Scientific Method. They started out by learning how to measure using the metric system. The next step was to learn the six steps of the Scientific Method. After they studied the Scientific Method their final project was to come up with a measurable question and take the question through the six steps. The sixth graders came up with all different questions. Some of the questions were: Does a white candle burn faster than a colored candle? Which type of chip has the most grease? Does the amount of light affect the amount of mold growth on bread? Plus many other great questions. After they were finished with their experiments, they put their results on a poster board and presented it to the class and public. The 3rd, 4th, and 5th graders also came to see the interesting experiments. The sixth graders would like to thank everyone that came. Mr. Veerhusen also wants to thank the 6th graders and their parents for their hard work.

**WANTED**

Royce Schweitzer is in need of milk jugs that have screw on lids for the fall concert. He will need these as soon as possible for his rehearsals. Please drop them off at the front office. Thank You.

### Heartland Huskies Jr. High Football Team Finishes the Year Undefeated

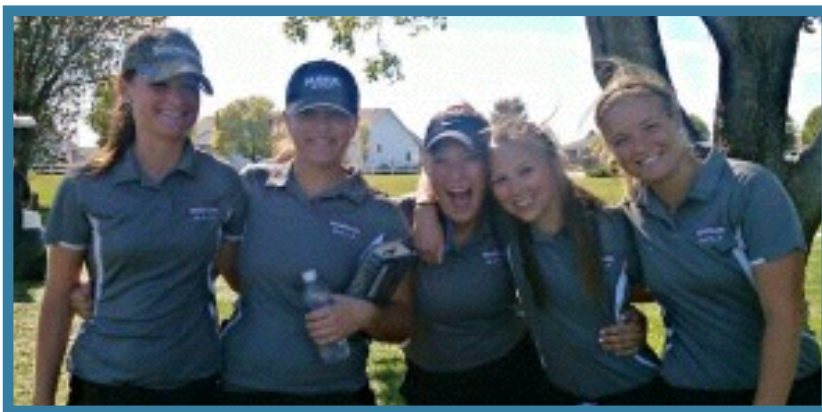

**The Heartland Huskies Jr. High football team** recently completed a perfect 6-0 football season. This is Heartland's second consecutive undefeated season accumulating a perfect 12-0 record in the last two years. The 2014 Huskies defeated Heartland Lutheran 46-6, High Plains/Osceola 36-6, McCool Junction 50-14, Exeter-Milligan/Friend 34-14, Giltner 44-20, and previously unbeaten Cross County 42-14. "It was truly a fun year with this year's young Huskies. I am extremely proud of their daily effort and focus. They really committed to getting better each and every day. That was our motto this year and they really adhered to it. We wanted to execute accurately on offense while focusing on playing fundamentally sound on defense. Our defense really carried us throughout the year and that was one of our most significant goals," stated coach Maltsberger.

The Henderson Huskie Youth football team completed another successful season this year accumulating a 4-2 record, a Blue Valley League Western Division Championship, and a Blue Valley League runner-up trophy for the second year in a row. The young Huskies defeated McCool 22-6, Superior 26-18, Friend/Dorchester 48-16, and Thayer Central 18-8. Their two losses came at the hands of Lincoln Lutheran 14-24 and Cross County in the championship game 8-42. "We really strive to develop basic fundamental football technique and an overall positive experience for our young athletes. The 4th-6th grade boys really showed a lot of improvement and with hard work and dedication will develop into really good football players as they progress through Henderson's football programs," stated Coach Maltsberger.
